

Technique Specification

Physical Specifications

Dimensions	50*46*32 cm
Weight	22 kg
Casters	Front wheels with lock

Pipeline Supply

Gas configuration	O ₂ , N ₂ O
Pipeline input range	280 ~ 600 kPa

Modes of Ventilation

MANUAL	Manual
--------	--------

Ventilator Parameter

Working Type	Pneumatic driven
--------------	------------------

System Standard

Hypoxic guard system	N ₂ O cut-off valve, O ₂ concentration >25%
APL valve	< 6kPa
O ₂ Flush	25 ~ 75 L/min
Volume of CO ₂ absorber	0.8 L (Optional for 1.6 L CO ₂ absorber)
Flowmeter	4 tubes, Cascade 0.05 ~ 10 L/min O ₂ , 0.05 ~ 10 L/min N ₂ O
Vaporizer	1 unit (Isoflurane / Enflurane / Sevoflurane / Halothane)

Optional

Anesthesia ventilator (CWH-1010, 1020)
Trolley
ACGO

CWM-101A
Portable Anesthesia Machine

Safe, stable and fully functional suitable for various environments

Feature

- Portable design, easy to operate and save space in operation theatre.Molding Production with a benefit of light weight and rust-proof.
- Integrated breathing circuit design ensures simple operation and clear equipment. 0.8 L CO₂ absorber also equipped on breathing circuit.
- APL valve design can set the pressure limit under manual control.
- 4 tubes flowmeter for O₂ and N₂O, support low flow anesthesia.
- Self-designed high precision Vaporizer with flow, pressure, temperature compensation, self-locking structure. High precision of anesthesia agent control.
- Different types of mask for animals' design.

Safe

Accurate

Reliable

The ideal Portable Anesthesia System support an upgrading notonly for clinical field, but also applicable for anesthesiology, gynaecology and obstetrics, stomatology and emergency department, It gives a safe, accurate and convenient support for application combination which will assit with fast response to life care.

Available To Connect Anesthesia Ventilator (CWH-1010, 1020)

- Multi Ventilation modes applicable to all kinds of animals.
- Suitable for all kinds of animals below 200 kg.
- Portable design ventilator can directly connect to anesthesia machine.
